Nevia Digital & Nevia Impression Has Been Certified For Kodak Nexpress

ANAHEIM, CA - We are proud to announce Nevia Paper's Digital Coated and Impression Color Copier have been certified for Kodak NexPress digital production color presses. We have developed our digital printing products specifically designed to produce the finest print possible, as well giving flexibility between digital print and digital press. We continue to strive to produce the highest quality products possible to meet today's print demands.

Nevia Paper product line has already received certification under HP Indigo presses, and is a great brand for on-demand print. Now that Nevia Paper Digital and Impressions brand has been certified on all Kodak Nexpress color presses. Kodak Nexpress was made to do high-impact commercial printing and has the look and feel of litho / offset printing, thus provides a larger option in using Nevia Paper for your printing needs.

Nevia Digital Coated with 91% bright and Impression Color Copier with 98% bright products are well suited for print-on-demand books, brochures, business cards, catalogs, commercial, and for a range of other uses.

Nevia Digital Coated products are available in Text and Cover. Coated Text is available in 80# and 100# Gloss and Silk, while Coated Cover is available in 80#, 100#, 111# and 130# Gloss and Silk. Nevia Impression Uncoated Color Copier is available in 24#, 27# and 32#. Visit www.neviapapers.com for product details.
